SQUANTO'S SECRET

Squanto's Secret is a liquid organic fertilizer recycled from the fresh fish by-product of one of New England's largest fish processors. The manufacturer uses new technologies to hydrolyze fish protein into a stable liquid which is then milled and finely screened to .007 inch (0.18 mm) particles. This allows the product to flow easily through injectors, spray rigs and most irrigation equipment. Natural, high quality ingredients are added to balance the NPK analysis, while retaining the certified organic status of the product.

NOT A FISH EMULSION
NO FOUL ODORS
BALANCED FORMULA
EASY TO USE

NOT A FISH EMULSION

Squanto's Secret is a fish hydrolysate made with natural enzymes from the papaya fruit. The amino acids that are hydrolyzed from the fish can be used directly by plants and by a plenitude of beneficial soil organisms.

NO FOUL ODORS

Squanto's Secret is made from fresh fish that has not had time to decompose, putting it in a different class from conventional fish emulsions that can have a very unpleasant smell. A natural citrus extract is added to further enhance its aroma so that this fertilizer can be used indoors or out.

UNIVERSITY TESTED

Field trials done by the University of Massachusetts at Amherst show that Squanto's Secret performs as well as or better than the leading chemical fertilizers.

QUALITY, NON-TOXIC INGREDIENTS

Squanto's Secret is made from the freshest possible food grade whitefish. It is environmentally safe and benefits the subvisible ecosystem within the soil.

Squanto's Secret mixes easily with water and does not clog sprayers, misters or any other type of applying tool. **NOTE:** Once Squanto's Secret has been diluted it should be used as soon as possible. pH stabilization is neutralized once the

product is diluted and strong odors can result if it is left standing.

BULK LOADS

Squanto's Secret is also available in bulk for commercial use, mixing with other ingredients or for private labeling.

TECHNICAL DATA

INGREDIENTS: Fresh New England ocean fish, food grade phosphoric acid (as a stabilizer), natural sulfate of potash, and natural citrus extract.

ANALYSIS:

Guaranteed Minimum Analysis

Total Nitrogen (N) _____ 2.0%
Available Phosphate (P₂O₅) _____ 4.0%
Soluble Potash (K₂O) _____ 2.0%

PACKAGING

Squanto's Secret comes in 16 oz., 32 oz., 1 gallon and 5 gallon recyclable plastic containers or in bulk containers of 55 or 275 gallons.

PALLET INFORMATION:

- √ All pallets are stretch wrapped
- √ Product may be ordered by case or by pallet

SIZE	CASE PK	CS WGT	PLT PK	PLT WGT
