Bonide Fruit Tree Spray is a combination of ingredients useful in controlling certain insect pests and plant diseases common to apples, roses, evergreens, ornamentals, and flowers listed below:

Spray is easily applied by tank, trombone, hand or hose end sprayers. Where nozzle plugging is a problem, use Bonide Complete Fruit Tree Spray Liquid.

DIRECTIONS—Select still periods for application (early morning or evening) to reduce waste by blow away and blow back on applicator. Make thin paste first with powder then dilute with balance of water to make quantity desired. During application, agitate sprayer to keep powder in suspension. Spray trees or plants lightly but thoroughly cover all parts of plant or tree, particularly undersides of leaves. Do not apply if rain is expected shortly after application. It is easier to prevent disease and scale damage than to cure same. Therefore, a preventive spray schedule is recommended.

APPLES: Use 10 level tablespoons per gallon of water. Start at green tip and repeat at 7 day intervals until bloom. At petal fall, repeat at 10 day intervals up to 7 days before harvest. Pests: Aphids, Apple maggots, Bagworm, Bud moth, Fruit fly & worm, Codling moth, Plum curculio, Flea beetles, Fruit tree leaf roller, Gypsy moth, Japanese Beetle, Leaf hoppers, Melybugs, Mites (Clover, European-red, Two-spotted and Willimette), Oriental fruit moth, Pear psylla, Psylla, Red banded leaf roller, Scale (Forbes, Putman, San Jose), Spittle bug. Tent caterpillars, Unspotted tentiform leaf miner, Yellow neck caterpillar. Diseases: Alternaria leaf spot, Apples fruit rot, Bitter rot, Black rot, Blossom rot, Bitryosphaeria rot, Botrytis blossom end rot, Brooks fruit spot, Brown rot, Fly speck, Froyeey, Sooey blotch.

Precautions & Restrictions: To protect pollinating insects, do not spray during blossoming period. Use Bonide Captan, that contains Malathion (CAS. No. 121-75-5) during blossoming period. Use Bonide Captan, that contains Malathion (CAS. No. 121-75-5) during blossoming period. Use Bonide Captan, that contains Malathion (CAS. No. 121-75-5) during blossoming period. Use Bonide Captan, that contains Malathion (CAS. No. 121-75-5) during blossoming period.

ROSES, EVERGREENS, ORNAMENTAL FLOWERS: Use 5 level tablespoons per gallon of water. Begin applications when pests or disease symptoms first appear or conditions favor their development and repeat at weekly intervals or as necessary to maintain control. Pests: Aphids, Bagworm, Bud moth, Flea beetles, Gypsy moth, Japanese Beetle, Japanese Beetles, Leaf hoppers, Melybugs, Mites (Clover, European-red, Two-spotted and Willimette), Oriental fruit moth, Pear psylla, Psylla, Red banded leaf roller, Scale (Forbes, Putman, San Jose), Spittle bug. Tent caterpillars, Unspotted tentiform leaf miner, Yellow neck caterpillar. Diseases: Alternaria leaf spot, Black spot, Black spot, Botrytis blossom end rot, Brooks fruit spot, Brown rot, Fly speck, Froyeey, Sooey blotch.

Precautions & Restrictions: May cause damage to crassula or ferns.

AS A DUST FOR ROSES, EVERGREENS, ORNAMENTAL FLOWERS: For control of insects such as aphids, bagworms, Japanese beetles, mites and other insects as listed above for apples which may attack roses, evergreens, ornamentals and flowers, apply this product on a calm day with a suitable dust applicator to cover all portions of the plant with a fine dust film on stems, leaves and buds. To protect bees, do not apply to blooms. May cause damage to Crassula or ferns. Do not apply to Camartt Junipers. Do not apply as a dust to any food crops. Do not breathe dust.

Not for use on plants being grown for dare or other commercial use, or for commercial seed production, or for research purposes.

Buyer assumes all risks of use, storage or handling not in strict accordance with directions given herewith.

FIRST AID
Have the container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-858-7378 for emergency medical treatment information.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth to mouth, if possible. Call a poison control center or doctor for further treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Contains carbaryl, a moderate reversible cholinesterase inhibitor. Atropine is antidotal. Do not use 2-PAM, opiates or cholinesterase inhibiting drugs.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

KEEP OUT OF REACH OF CHILDREN
CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear long-sleeved shirt and long pants, socks and shoes.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish. Do not apply directly to water. Do not contaminate water when disposing of equipment wastewater or rinsate. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

USER SAFETY RECOMMENDATIONS
Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

STORAGE AND DISPOSAL
STORAGE: Store and transport in an upright position. Store in a cool, dry area inaccessible to children or pets.

DISPOSAL: If empty: Do not reuse this container. Place in trash or offer for recycling, if available. If partially filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused products down any indoor or outdoor drain.

• Apply when air is calm to avoid drift and contact with eyes and skin.
• Start spraying at the farthest corner of the treatment area and work backward to avoid contact with wet surfaces. Allow spray to dry in treated areas before reentering.
• For tree taller than 10 feet, consider hiring a licensed professional.
• Spray thoroughly to wet upper and lower leaf surfaces, stems and branches.
• Do not repeat applications more than once a week.
• ENTRY RESTRICTIONS: Do not allow people or pets to enter the treated area until sprays have dried or dust has settled.
