FIRE ANTS—For use in lawns, gardens, around buildings, agricultural land, golf courses, campgrounds, and recreational areas. Thoroughly mix 2-4 tablespoons in 2 gals. of water and saturate the mound and surrounding area to a 4 ft. diameter. Repeat in 7-10 days or as necessary. Treat new mounds as they appear. Application should be made as a gentle rain from a sprinkler can or using low pressure spray since pressurized sprays may disturb the ants causing migration and reducing product effectiveness.

Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

In case of an emergency, call 1-800-548-2423 (Animal Poison Control Center).

Recommendations for use of this product are based on tests believed to be reliable. The buyer must assume all responsibility for use of this product when not used in strict accordance with directions or established safe practice, or when used under abnormal conditions not reasonably foreseeable to the seller.
